Company Presentation

Eurometal SA

Eurometal SA is one of the most dynamic companies in the trading and processing of steel and minerals in northern Greece. Founded in 1992, after merging with C. Karakostas & Co., Eurometal SA carries forward customer relationships and know-how since 1980.

Primary objective of Eurometal SA is the optimum high-quality customer service with short order cycles and competitive product prices. The most important asset for the company is its human resources, who are characterised with strong dedication to distinguished performance and co-operation. All of the above, combined with constant long-term

commitment to our customers, as well as to our trusted partners such as engineers and construction companies, drives the customer service level of the company into one of the highest in the industry.

This long presence in the market allows Eurometal SA to offer turnkey solutions to a variety of technical issues. For this purpose, a wide range of quality steel products is available, which covers an equally wide range of applications such as steel structures, industrial buildings, outdoor spaces, architectures and more.

These products are available on site stock in sufficient quantities and include beams, joists, hollow sections, tubes, angles, flats, sheets, panels, gratings, cold-formed profile sheets, wires, accessories, etc.

Eurometal SA constantly tries to be innovative. Owned logistics facilities of 18,000 sq.m. are in use since 2008, having high-technology warehousing, handling and inventory control systems. Furthermore, the associate company Europrofil was founded in 2004 in Volos, facilitating a production unit of profile sheets.

In summary, it should be noted that Eurometal SA has demonstrated that the customer relationship is much more than typical and above else, friendly.

Europrofil

Europrofil – G. Karakostas OE is a Greek based industry, founded in 2004, part of the Eurometal SA group, dedicated to deliver high quality structural steel products with application in steel and composite structures and buildings.

Europrofil is a quality producer and supplier of pre-engineered steel buildings. The company works with owners, engineers, architects and contractors to realise their vision. Services that are offered include design and engineering of structures and fabrication of the consisting components with a scalable capacity of 2000MT per annum.

Main product family of the company is cold formed profiles and sections, including composite deck sheets, trapezoidal sheets and purlins. In this area, Europrofil is in exclusive partnership with ArcelorMittal Construction Hellas producing Cofraplus series. This range is being produced by an automated flexible production line with an annual capacity of 7000MT.

Other production activities include industrial gratings for use in elevated corridors, stairtreads and fencing systems.

All of the above products are in full accordance with the highest safety and quality standards and regulations, certified by ISO, and are readily available within the Balkan market.

Product Range

Common Steel

Sheets

Sheets hot/cold rolled, galvanized, prepainted, embossed, perforated

Beams

Beams UPN, IPN, IPE, HEA, HEB

Angles

Equal, unequal, tee

Other long products

Flats, rounds, squares

Hollow sections

Rectangular/round sections/profiles, tubes

Panels

Roofing panels
Polyurethane, stonewool

Wall Panels
Polyurethane (building/cold room), stonewool

Flashings
Pentiments, fronts, gutters, ridges, corners, doors, windows

Sheet profiles

Trapezoidal composite deck TD60
Width 828mm, thickness 0,75-1,50mm galvanized

Trapezoidal long-span cover TC60
Width 828mm, thickness 0,75-1,50mm prepainted

Trapezoidal cover grecata TC38
Width 796-828mm, thickness 0,40-1,25mm, galvanized/prepainted

Other profiles

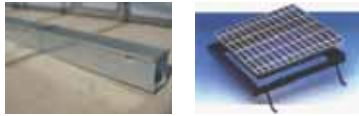

Trapezoidal 35/50/98, corrugated, roof tile

Gratings

Standard-sized gratings

Drainage trench covers, manholes

Staircases/stair treads

Standard-sized stair treads, standardised staircases

Industrial gratings

Grating panels, passageways, special sizes

Fence panels

Grating panels with stanchions for fences

Wire, mesh

Fencing, square, rhomboid, chequered, concrete reinforcement

Accessories

Locks, hinges, wheels, drives, mechanisms, latches, handles,

Consumables
